G8: PROTESTS, POLICING AND POSTMORTEM

WPJF's banner on a bridge over the M9 Motorway near Stirling

A line of clowns and several lines of police stop the traffic in and out of Faslane

"Encompassing voices from all parts of the globe, our movement challenges the G8's tidy picture of global consensus and the triumph of the neo-liberal project. We have no demands for them. We are not asking the G8 to make history or to put a human face on the excesses of capitalism. Our resistance rejects altogether the idea that the world should be controlled by the powerful for the powerful. Instead, we are organising together, showing solidarity and creating alternatives - right here and right now."
