

SHUT DOWN LONDON ARMS FAIR

Activists from all over Britain and Europe will be converging on London between 6th-12th September to shut down Europe's largest arms fair, Defence Systems + Equipment international (DSEi). Arms dealers and government representatives from across the world, including many tyrannical and oppressive regimes such as "Axis of Evil" Syria, will be shopping at the DSEi deadly weapons supermarket to acquire the latest technology and killing power. The misery and suffering this causes is forgotten as capitalist interests drive the military production machine ever onwards.

Many events are planned for the week, including demonstrations, vigils and direct action. For details of events go to www.dsei.org or call 0781 7652029.
